PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Bass
DOCKET NO.: 04-23960.001-R-1
PARCEL NO.: 02-09-402-096-0000

The parties of record before the Property Tax Appeal Board are Robert Bass, the appellant, by attorney Edward Larkin of Park Ridge and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story style single-family dwelling of frame construction containing 3,456 square feet of living area and located in Palatine Township, Cook County. The subject amenities include two full baths, one half bath, a full basement, air conditioning, a fireplace, and a two car garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a grid analysis describing three suggested comparable properties located on the in the same coded assessment neighborhood as the subject. These properties consist of twostory style single-family dwellings of stucco or frame and masonry construction from 25 to 41 years old. The comparable contain two full baths, one half bath, dwellings air conditioning, fireplaces and have garages; two also The comparables range in size from 2,308 to 2,761 basements. square feet of living area and have improvement assessments ranging from \$8.27 to \$10.53 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$39,078, or \$11.31 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds <u>no change</u> in the assessment of the property as established by the <u>Cook</u> County Board of Review is warranted. The correct assessed valuation of the property is:

detailing two suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of four and ten year old, two-story style single-family dwellings of frame and frame and masonry construction. The comparables contain two or three full baths, half baths, basements, air conditioning, fireplaces, and have garages. These properties contain 2,341 and 3,405 square feet of living area and have improvement assessments of \$15.45 and \$12.60 per square foot of living area, respectively. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds that the parties submitted five properties as comparable to the subject. The Board finds that three of the improvements are significantly inferior in age; three are inferior in size; one differs in construction type; and three are slightly superior in construction type when compared to the subject improvement. These properties have improvement assessments ranging from \$8.27 to \$15.45 per square foot of living area. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is appropriately within the range established by the comparables and supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
